

Fahad Md Kamal Senior Software Engineer | Python, Django & FastAPI

✉ fahadmdkamal@gmail.com ☎ +8801675759801 🌐 GitHub 🔗 LinkedIn 📁 Portfolio

📍 Dhaka, Bangladesh

Career Summary

Backend Engineer with 5+ years of experience building production Python systems — REST APIs, geospatial data pipelines, and performance-critical backends for SaaS, healthcare, and enterprise platforms. Solid foundation in Django, DRF, FastAPI, and PostgreSQL/PostGIS, with async pipelines and deployment on AWS (Lambda, S3, Athena, EC2) and Docker

Skills

Core Strengths

Python 3, Django, Django REST Framework, FastAPI, PostgreSQL, PostGIS, Git

Cloud & Infrastructure

AWS (Lambda, S3, Athena, EC2), Docker, Terraform, Nginx

Async & Data

Celery, Redis, Elasticsearch, WebSockets, JWT Authentication

Tools & Practices

REST APIs, pytest / pytest-django, Agile/Scrum, Code Reviews, React, Vue.js, Flutter (contributor level)

Education

The Greenwich University,

BSC (Hons) in CS
Jan 2017 – Dec 2020
London, UK
Completed via the NCC Education pathway (Level 3 International Foundation Diploma, Level 4 & 5 Diplomas in Computing), delivered by Daffodil International Academy, Bangladesh.

IELTS Academic — Overall Band 6.0 (Oct 2015)

Work Experience

Senior Software Engineer, BJIT Limited

Jul 2023 – present | Dhaka, Bangladesh

- Build and maintain Django and FastAPI microservices for enterprise SaaS platforms across multiple concurrent client projects
- Led backend for a confidential geospatial platform (NDA) — multi-database PostgreSQL/PostGIS architecture, async AWS S3 → Lambda → Athena pipeline for large-scale geoparquet processing; contributed to React frontend and Docker/EC2 deployment
- Contributed to a confidential cybersecurity risk-rating platform (NDA), improving API response times by ~30% through query optimization on an Elasticsearch-backed system
- Contributed to a confidential AI-powered document processing tool (NDA) integrating Azure OpenAI and Anthropic Claude
- Collaborate in Agile/Scrum teams; write modular, well-tested Python code and conduct code reviews

Senior Software Engineer, Mevrik DCX

Dec 2021 – Jul 2023 | Dhaka, Bangladesh

- Developed backend services for an omnichannel customer engagement platform using Django REST Framework, JWT-based multi-tenant authentication, and Celery for async processing
- Integrated Celery and Redis for background task processing and caching, improving system responsiveness
- Built FastAPI-based onboarding automation to streamline client setup workflows

Software Engineer, Alesha Tech Ltd.

Feb 2021 – Nov 2021 | Dhaka, Bangladesh

- Developed internal ERP and B2B APIs using Python and Django
- Participated in the full software development lifecycle, from requirements gathering through deployment

Intern Software Engineer, Dream Array

Sep 2020 – Dec 2020 | Dhaka, Bangladesh

- Built Django REST APIs for B2B and healthcare applications
- Helped deploy services on AWS EC2

Selected Projects

Geospatial Data Platform (Confidential Client)

May 2025 – Present

- Django/PostGIS backend + async AWS Lambda/SQS/Athena pipeline for enterprise geospatial data processing

Cybersecurity Risk Rating Platform (Confidential Client), Senior Software Engineer

Aug 2023 – Sep 2024

- Django REST Framework + FastAPI microservices with Elasticsearch-backed threat data processing; improved API response times by ~30% through query optimization

Omnichannel Customer Engagement Platform (Mevrik DCX), Senior Software Engineer

Dec 2021 – Jul 2023

- Django REST Framework backend with JWT-based multi-tenant authentication; Celery + Redis for background processing and caching; FastAPI-based onboarding automation

Real-Time Dengue Outbreak Surveillance System, Full-stack

- Citizen-reporting platform: Django REST Framework backend, Flutter mobile app, OpenCV-based detection, Google Maps, and real-time chat via Django Channels

Maternal Health Tracking Platform (Mayer Hashi)

- Django REST APIs and companion Flutter app for maternal health tracking; designed the PostgreSQL schema for appointments, reports, and nutrition tracking
